Dear Sir:

This is in response to the Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures, dated February 2, 2004. Applicants are submitting their response herewith within the two-month response period set to expire on June 2, 2004.

The U.S. Patent and Trademark Office has taken the position that the previous "Sequence Listing" in computer readable form did not comply with the requirements of Section 1.824 for the stated reason that it contained several raw sequence listing errors. Submitted herewith in connection with the above-referenced patent application is a substitute, computer readable copy of the Sequence Listing that corrects the defects noted in the raw sequence listing (along with a substitute paper copy). No new matter has been added to the substitute Sequence Listing.

Applicants respectfully request entry of the Sequence Listing in the above-referenced patent application.

Dated: June 2, 2004

Respectfully submitted,

By 
Debra J. Glaister
